

RHH Web-based Orientation Program for IMGs

NWAHS Addendum

Welcome to the NWAHS web-based orientation program which is intended to assist the International medical Graduates (IMGs) working with the North West Area Health Service. The program topics range from information about the Australian Health Care System, legislation, professional practice issues as well as communication, cultural safety and living in Tasmania. In addition, compulsory on-line programs will increase the IMG's understanding of Australian Society.

Please note: to access some of the online courses, the doctor will be required to register as a new user, whilst other courses will only require the DHHS login, supplied by IT Services.

Page 7

The common medication chart is available to all through the DHHS site and the NIMC website.

<http://nimc.nps.org.au/elearning/log/login.asp> Logons are available from the Medical Education Advisor (Rose Moore).

NSWTAG also has a website from which the terminology document can be accessed.

http://www.ciap.health.nsw.gov.au/nswtag/about_nswtag.html

All NWRH policies and Statewide medication policies can be accessed through the DHHS intranet.

Page 9

Accessing of audio and typed reports is not available at the NWAHS
Digital Medical Record is not available at the NWAHS
